

Invest in Kruner's groundbreaking solution for building sustainable cities.

The Solution Kruner Binder Technology

- Replaces cement as the de facto construction binder.
- Our Kruner Binder mixed with any sand grade, including desert sand, becomes **concrete without cement** – we call it KrunerRoc.
- Applicable across seven construction & building industries.

Unique Benefits

	Cement-free No slag or fly ash		Minimum 60% less water needed
	Up to 80% less energy		Cost-effective
	Up to 90% less CO2		Widely accessible raw materials
	Circular economy		Global scalability
	ESG- and SDG-friendly		Harm-free
	Superior performance		Minimal disruption

Potential Global Market

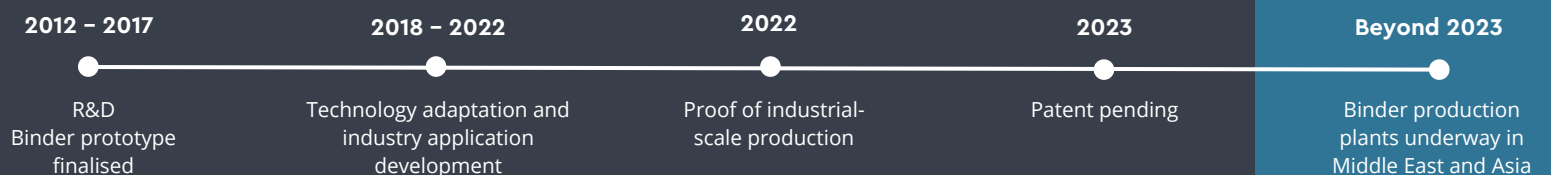

Our Business Model

-  **Licensing**
-  **CO2 Certificates**
-  **Binder sales in seven construction & building industries:**
cement, precast, brick, stone, ceramics, insulation, ready-mix concrete
